## New - Fill Your World With Good Video

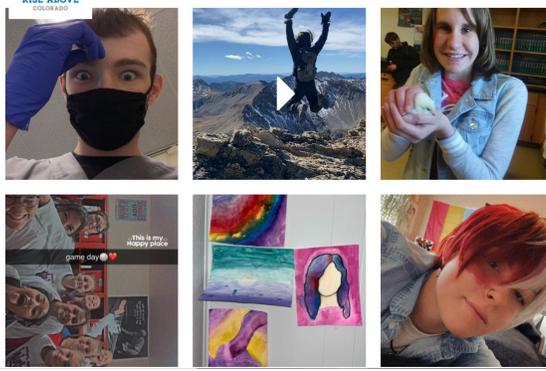

## Red Ribbon Week

Annual Red Ribbon Week, which promotes youth substance use prevention came to a close on Oct. 31 but let's carry on the effort year-round. We can all encourage youth to make positive, healthy choices from our classrooms, medical offices, coffee shops, soccer fields and inside our homes.

## More Fill Your World With Good Pics

Teens across Colorado have shared how they fill their world with good and avoid substance misuse. We combined some recent submissions into a video that we're sharing far and wide - see if you recognize anyone you know! You can access the video by clicking on the photo above [or at this link.](#)
